OFFICIAL PAPER OF THE CITY

No flag but the Old Flag—the Red, White and Blue,
With the stars of a Union unbroken and true!
Arise and defend it ye sons of the brave!
Whose blood bought the banner your valor must save!

THURSDAY MORNING, MAY 15, 1862

"He that is not For Us, is Against Us"

The two great questions are now submitted to the people of Oregon 1st—Are you for the principles which have been carried out in the secession and rebellion of the Southern States and the breaking up of the Government, or are you for the Union and Government as our fathers gave it and the measures now employed for its preservation? These are plain questions.

The secession party have held a convention and nominated candidates to carry out their principles. Mr Newell, delegate in that Convention from Wasco county, says that secessionists controlled all the proceedings of the Convention

The Union party have made their nominations of candidates to carry out their principles—the Union as our fathers left it—FOR EVER.

If men vote for the secession candidates, they vote for disunion—they vote for breaking up the Government—they vote for Jeff Davis and rebellion.

If men vote for the Union candidates, they vote for sustaining the Government—for reinstating the Stars and Stripes on every flag staff in the South from which it has been torn by traitors—for securing a country, a Government and home to all our people, and for continuing our national ensign as the beacon of hope to all the down trodden people of the earth

Hereafter it will be said ☞ There goes a man who was against the Union in the days of the Southern rebellion, and of another ☞ There is a man who stood like a rock to sustain the Union when the surges of rebellion threatened its overthrow

FROM POWDER RIVER.—The *Carrie Ladd* arrived yesterday afternoon from the Cascades having been delayed some twenty hours waiting for the *Idaho* to connect from the Dalles, which was delayed in consequence of a storm which struck the *Idaho* between the Cascades and the Dalles, forcing her to seek shelter behind a point in a willow grove, covered with water No damage done, however, beyond the delay.

Some 25 miners from Powder river came down on the *Carrie*, and from the tone of their stories, one would rationally conclude they had put on a "big disgust" with the prospect for realizing a "boot full" of the precious stuff from that locality We are not at all surprised at this reverse, but shall expect to see and hear of more of a similar kind before many days shall have elapsed, in which hundreds who have rushed headlessly on up to that country long before it was possible for them to even get to the mines or obtain the means of support in any manner Warning upon warning has been given, statements made and facts detailed, showing the utter impossibility of getting to the mines east of the mountains, except by the severest trials, expense and exposure, in consequence of the severe winter, in which unprecedented snows and ice fell upon the ground, requiring many days of warm suns to melt and thaw away, but still the people (those who were able to pay their passage) would crowd the docks of the steamers or jump into small boats on pack animals, while others again would start off on foot packing their own outfit, seemingly regardless of every admonition or indifferent as to consequences We are now beginning to witness some of the results of this madness, and we fear we shall see and hear worse yet to come The country has not yet been sufficiently prospected, because it could not be done, to warrant the certainty of a very large number of miners realizing profitable income from their labors And time must elapse and many paying diggings must yet be discovered before even those who have already gone up there can be accommodated with a paying claim Since such is the case, how will those fare who start from here without money, or but scarce enough to take them to Walla Walla (not more than half the way to the mines) when they get up there? A friend writing from above says "You cannot realize the rush of people to the mines," and he adds what might have been expected that "Many miners have spent their last cent, and are at Walla Walla unable to move a step further They would be glad to get to the mines and work for others if the means for getting there was advanced to them, but this seems not to be done

The return miners report that nearly all who had started for Powder River were on their return to Walla Walla, when those who can will strike for Salmon Some fifty miners were left on Powder river who will continue to prospect for a while longer, and we sincerely hope will yet be successful in finding rich diggings

LATER FROM THE EAST.

EVACUATION OF YORKTOWN.

Matters at Corinth.

Congressional Proceedings.

More Battles, Captures, &c. &c.

CHICAGO, May 4 Yorktown was evacuated on Saturday night The Federal troops occupy that place and Gloucester The rebels left a large amount of camp equipage and guns, which they could not destroy for fear of being seen

WASHINGTON May 5—Yorktown was evacuated last night We now occupy the enemy's works They left a large amount of camp equipage and guns

The following has just been received by the War Department

HEADQUARTERS OF ARMY OF THE POTOMAC, May 4—E M Stanton We have taken transports guns ammunition and camp equipage We hold the entire rebel works, which our engineers report as very strong I have thrown all my cavalry and horse artillery in pursuit supported by infantry I hope next Franklin's division, and as much more as can be transported by water to West Point today The gunboats have gone up York river Gloucester is also in our possession I shall push the enemy to the wall (Signed) McCLELLAN

From the army correspondents we have the following We entered the enemy's works at five o'clock this morning which their rear had deserted four hours before Everything was found in utter confusion About fifty pieces of artillery were left spiked A large amount of medical stores ammunition, camp equipage, tents and private property of officers, was left Several deserters came into our lines One states that the rebels evacuated owing to the near approach of our parallels—that they learned the success of our gunboats in York and James rivers Gen Johnson gave orders to evacuate on Thursday Magruder is said to have strenuously opposed evacuation, saying that if they could not whip the Federals here they could not do it anywhere in Virginia The deserters all agree in stating that their troops were much demoralized and disheartened when the order to evacuate was given as all anticipated a fight The rebels had a hundred thousand men on the peninsula, and also four hundred pieces of field artillery It is believed that they have fallen back behind Williamsburg where it is expected they will make a stand

Gen Stoneman, in command of a large force of cavalry and artillery, is pursuing the enemy and will probably come up with the rear before night, if they remain near Williamsburg The gunboats have passed Yorktown, and are now shelling the rebels. Following them are a number of vessels loaded with troops ready to effect a landing

An official report just received says the enemy left seventy one guns in the works at Gloucester Point. Ordnance stores were also left

FORTRESS MONROE, May 5—The rebels at Yorktown opened this morning with their rifled cannon—sixty eight pounders placed on the heights of Yorktown One battery of our Parrott guns was then brought to bear on the only gun which has given us any trouble, our shots falling over and around it On its twenty third discharge the enemy's gun burst tearing up the parapet and making havoc with the crowd who were collected around at the time No less than ten persons were standing on the parapet within six feet of it besides those who were hid from view by the works The loss of life must have been considerable This is the only gun which the rebels have shown to be capable of doing our number one battery any harm All firing on their side ceased. Ours continued and was renewed with vigor About one hundred shots were fired by our guns up to two o'clock, when the firing ceased A rebel steamer came down quite near to us and attempted to land some troops, but they were driven off by our 100 pounders The rebels kept up a continual fire all last night on our men in the trenches The only casualties were the wounding of two soldiers

The Richmond *Examiner* of May 2d contains the annexed items

"SAVANNAH, May 1st—A dispatch from Corinth of the 29th of April says that the enemy has been reinforced and is advancing Heavy skirmishing daily.

MOBILE, May 1st.—A dispatch from Corinth of the 28th says.

Col Scott with two companies of the Louisiana cavalry, has driven out a regiment of Federals from Tuscumbia, killing several and taking forty prisoners The enemy burnt their stores and were pursued by the Confederate cavalry. The result is unknown

The telegraph operator at New Orleans telegraphed to the Mobile office that the stores were being emptied of sugar and molasses, which was thrown into the river The city was to be surrendered, but the time was not known Some of the enemy's vessels came up the river.

SAVANNAH May 1st—General Lawton has formally communicated to the City Council his determination to surrender the city The Council have resolved to sustain him.

CHARLESTON May 1st—The Federals captured a small battery of two guns near White Point twenty-two miles from Charleston Gen Evans has sent a force to look after the Yankees"

WASHINGTON May 3d—The Navy Department has just received dispatches from Commodore Dupont announcing the capture of the steamer Ella Warley by the Santiago de Cuba. She was deeply loaded with Enfield rifles, for the rebels, and it is supposed has cotton in her fire hold, which had not been broke into at the time the steamer bearing the dispatches left The Santiago de Cuba also chased the Nashville but the latter was too swift for her The Nashville was also loaded with arms, and intended to run the blockade

PITTSBURG LANDING, May 5—The roads are improving. No Cattle yet Deserters from the rebels arrive daily A few days since, one Tennessee and one Mississippi regiment of twelve months men stacked arms, their time having expired, and refused to fight They were put under arrest

FORTRESS MONROE, May 2—A flag of truce left Norfolk last night and arrived this morning

Commodore Tatnall, in command of the *Merrimac*, received sealed orders on Monday and sailed, but on opening them in Elizabeth river, found he was ordered to run the blockade and proceed to York River He therefore returned to Norfolk immediately and resigned his commission, as did also his chief officers

There are six or seven thousand rebel troops, under Gen Huger, between Pig Point and Norfolk

Three companies in Portsmouth rebelled a few days since It is also reported that Magruder's force had mutinied at Williamsburg

NEW YORK May 5—The *Times* special Washington dispatch says the town was startled by a report that all the members of Congress from the border slave States and a number of conservative sympathizers from other sections are seriously considering the propriety of withdrawing in a body from the Senate and House in consequence of the determination of the radicals to force the passage of a Confiscation Bill This will throw the question before the people

Austin H Smith, late Navy Agent at San Francisco has been released from Fort Warren.

WASHINGTON May 5th—The War Department at noon to day received advices from Halleck, which indicate that important events will take place in the neighborhood of Corinth within two or three days.

PITTSBURG LANDING, May 4th—The following dispatch has been received at headquarters

A reconnoissance sent towards Farmington, Miss yesterday found the enemy's forty-five hundred strong, with four pieces of artillery and some cavalry occupying a strong position near the town Our forces advanced at once to the assault After a slight skirmish we carried the position in handsome style The enemy left 70 dead on the field, also tents and baggage Our cavalry is pursuing them. The whole affair was very handsome, our regiments charging their batteries and line of infantry at the double quick The enemy fled in wild confusion Regiments of cavalry were sent through Burnsville, took possession of that town, tore up the railroad track, and destroyed two railroad bridges We have a good many prisoners Our loss was two killed and twelve wounded

(Signed) JOHN POPE, Major-General

The Daily Oregonian.

CITY.

The MORNING OREGONIAN has a larger SUBSCRIPTION LIST than any other Daily published in this City.

THE DAILY OREGONIAN may be had at the Franklin Bookstore, opposite the Post Office.

COMMON COUNCIL.—Council met last evening. Full board present.

Petitions were presented signed by a large number of citizens, praying that the high license placed upon cheap auctioneers be reduced. Referred to a special committee of Messrs. Holmes, Coffin and Dennison.

Committee on fire and water reported a resolution authorizing the committee on fire and water and chief engineer to advertise for proposals for a suitable lot on which to erect an engine house for Company No. 3. Adopted.

Committee on health and police reported that they had examined the city ordinances and find them sufficient to enforce the repairs of the streets.

Committee on judiciary reported adversely to granting W. S. Johnson (colored) license to retail liquors, he not being a resident of Oregon. Report adopted.

The bills of Portland Gas Light Co., for $35 78, $28, and for lighting street lamps, $102, were referred to finance committee.

The bills of Messrs. Smith, $20, and McKibben, $4, were ordered paid.

License was granted Henry Engel to retail liquors.

Resolution authorizing the committee on health and police to appoint a street scavenger, and defining his duty to remove rubbish and nuisances collected in the streets, adopted.

An ordinance to prevent the butchering of cattle or keeping them for sale for a longer period than three days in any pen or lot within the city limits, and to prevent the depositing of rotten vegetables, &c., within the city limits, was called up and read a second time. (It will no doubt pass at the next meeting of the board.)

Mr. Edward Giddings, Chief Clerk of Surveyor General's office for Washington Territory, is in town on his way to Walla Walla and the country east of the mountains, where he goes to make examinations and report upon the topography of the country, showing the most susceptable of culture, as the wild sections are now settled and need surveying. It is expected that a much larger appropriation will be made this year than was made last, for the surveying the country, and his examinations are to be a guide for future expenditures in running the surveys where they are most needed.

Mr. C. H. Hale, Indian Superintendent for Washington Territory, came to this city from the east last, and took possession of a considerable amount of stores which had been purchased by his predecessor for the Upper Country. Mr. Hale took the oath of his office last Friday last, and has entered upon the discharge of his duties. We doubt not he will make an efficient officer.

Our City Fathers, at their meeting last night, paid some attention to the sanitary condition of the city.

CHANGE OF STEAMERS ON THE UPPER WILLAMETTE.—From and after Monday next, the *Yamhill* will take the place of the *Union* on the route from Oregon City to Yamhill and Dayton, with a change also in the days of arrivals and departures, the latter being the result of the change of time by the Oregon Central. The *Yamhill* will leave Canemah on Mondays, Wednesdays, and return on Tuesdays, Thursdays and Saturdays. Which will be the reverse to the time now performed by the *Union*. The *Union* will lay up for repairs.

We notice in the telegraphic reports from Washington to the Sacramento *Union* of May 6th, that commissions have been received from the Department at Washington for the following Postmasters: James Worth, Albany, Linn County, Oregon; Timothy Buckley, Seattle, King county, Washington Territory, and notice of appointment of Major O. Harkwell, Slate Creek, Josephine county, Oregon.

J. R. Wilkinson writes to his wife in this city from Lewiston, the 2d of April, that Ned Woodward's revolver had been discovered in the hands of Indians, and that two white men were suspicioned of being with the Indians at the time the murders took place on John Day's river.

The Puget Sound *Herald* says that a man named Sergeant White was recently drowned in the Puyallup river, while attempting to ford the stream on horseback. White was formerly in the U. S. Army.

The small pox was committing terrible ravages among the Indians in Victoria, at latest dates.

"I am a Breckinridge man because my uncle owns niggers in Missouri," said a citizen of Washington county. Exactly so; and a good many others are seceshers for the same reason.

DIED:

Of the measles, Lizzie C. Bacon, aged 3 years and 8 months, youngest daughter of Chas. P. and Clara A. Bacon. Funeral to take place at their residence, 2 o'clock P. M., this day, 10th inst.

Agency Notice.—M. L. P. FISHER is our only authorized Agent in San Francisco to receive advertisements, and transact business for the DAILY and WEEKLY OREGONIAN. Office—No. 114½ Washington street, nearly opposite Maguire's Opera House.

For The Medical and Surgical Institute of DR. L. J. CZAPKAY is already secured in a position which places it, as well as its proprietor, far above the assaults of envy and professional malice. In the schools of France, the highest prizes are often awarded to gentlemen in the department of medical science and they compare with others, as equally lofty position in the profession. Read in an illustrious example a shining light among the philosophical stars of his age in Europe and Dr. Czapkay has all ly equalled him in this country, as a proof of which, the Philadelphia College of Medicine complimented him with a Diploma, and the honorary title conferred on the Surgeon, as his field of operations, although qualified as a graduate of the University of Pesth, and late Chief Surgeon of the Hungarian Revolutionary army, for more extended labors. Dr. L. J. Czapkay has best his earnest attention to the cure of chronic and private diseases to which he has become so great an expert, that he is now regarded as the leader in this Branch of his profession in Europe, and the United States, and his portrait and biography are published as matter of interest to their readers in the most exclusive journals. The Doctor's offices are at his Medical and Surgical Institute, on Sacramento street, corner of Leidesdorff, directly opposite the buildings of the Pacific Mail Steamship Company, San Francisco. We ask particular attention of our readers to the sworn certificates of remarkable cures, in another column of this paper. Persons not wishing to lose time in corresponding, please enclose $10 in their letters, and they will get immediate attention to their cases. Address L. J. CZAPKAY, M. D., San Francisco, Cal. Information of James H. Hughes Wanted.

JAMES B. HUGHES is supposed to have been a resident of Portland, Oregon. For about two years past his friends in Michigan have not heard from him. A short time since it was understood by his friends in Michigan that he had died some time about the date of March, 1861, and that he left a large amount of property. In pursuance was a short and thick set man, of dark complexion; sharp featured, and by occupation a lumber dealer and commission merchant, owning extensive lumber and planing mills.—His present age, if he were living, would be about forty-one years. He went to California in 1849. His former residence was Chicago, Ill. It is supposed that he left a wife and two children, but that they are not with him.

Should any citizen of Oregon or Washington Territory, or California, possess any knowledge of the James B. Hughes and will communicate the same to the editor of this paper or the undersigned, a great favor will be conferred, which will be duly acknowledged.

Dietz's Diamond Oil.

WE NOW OFFER TO THE PUBLIC in full confidence a new article of

KEROSENE OIL,

Which we warrant in every particular, to be

Superior to any other Oil

ever brought to the San Francisco market. It has been thoroughly tested in all the different Patent Coal Oil Burners, and found to produce

More Light and Burn Longer

by one-third, than any other oil in use.

Among the many advantages of this KEROSENE OIL over other oil is: First, that it is perfectly NON-EXPLOSIVE, and can be used with perfect safety in all kinds of LAMPS. Second, it is free from all objectionable and unpleasant smells, and burns with a clear white brilliant flame. We confidently solicit the public and FAMILIES to give this Oil a trial, and once tried, we feel confident it will gain a preference over all other Oil for economy as well as superior burning qualities.

In order to protect ourselves against Counterfeits we have placed a brand on each can and case, which will be known as

DIETZ'S DIAMOND OIL.

It is now offered at wholesale and retail at

505 Front street,

Between Washington and Jackson streets,

And at Brandt's Store, 50 Second street,

NEWSPAPERARCHIVE®

A Military Hero.

The last number of *Vanity Fair* contains the first chapter of "The Wrath of the Rebel Rival," a romance of the war, by McArone We copy the following unique account of the hero of the novel:

On a fine morning in the lovely month of December, as the sun rose above the misty tops of the mountains that line the Potomac, a young officer might have been seen emerging from his tent in the camp of the Eleventh Pontoons

But it was no common tent.—It had cross-halls, a piazza, a wine-cellar, and a stove with a rifled stove-pipe, to make the smoke shoot straight

Nor was this young officer a common young officer Scarcely forty-three, he had already won the proudest laurels of the gory field, and a black eye attested the blind fury of his valor In cold weather, he was always to be found where the fire was the hottest He was arrayed in a fine blue uniform, brass-mounted, and wore yellow gloves, a red coat, scarlet trousers, a green cap, and a chaw of tobacco in either cheek. His loins were girded up for battle; fire sat upon his lip; death upon his sword; his neck was clothed with thunder and his breath smelled of onions.

His father had been an Indian, and his mother a Dutchman, but as both had petitioned the Legislature to allow them to become natives of the M. E. Church, he claimed to be a Portuguese of the sang azur, and his name was Senhor Don Rantanquero de Boom-jing-jing. He was seven feet high in his socks, weight, two hundred and eighty pounds, Troy weight—he weighed more in Albany—and had a good common-school education.

His manners were polished, some; his warhorse was fleet as the wind; he had suffered a good deal with rheumatism, and knew Dr. Watt's Juvenile Poems by heart In battle, he was awful. He wielded a Scottish claymore longer than himself, and a brace of double-back action revolvers, presented him by the celebrated Gun-Maker of Moscow.

THE GOOD WIFE.—The power and the opportunity of the wife for good or evil, as she wills, is almost illimitable. Within her domain dwells happiness or it is forever expelled A good wife is to her husband, wisdom, courage, strength and endurance. A bad wife is to her husband, discontent, confusion, weakness, discomfiture, ay, despair. No condition with a kind, frugal and good-willed wife is hopeless No degree of prosperity can counteract the indolence, shiftlessness, extravagance and folly of a bad wife. Who can live comfortable under the daily influence of a peevish, scolding woman? Man is strong but his heart is not adamant. He delights in labor or business when sustained and cheered on by the tranquil mind and cordial good will of his wife He returns to his home worn out by toil and care, wearied and disheartened, it may be by conflicts with the world, the flesh and the devil, to recover equanimity and composure of mind. Home should, therefore, be peaceful, cheerful and comfortable, where his mind is unburthened and his physical strength renewed, that he may go forth re-invigorated to encounter anew the anxieties and conflicts of business life. But if at home, no words of cheer nor peace nor rest welcome him, but instead thereof, he is met with a frowning face and hears naught but complaints and reproaches, the concomitants of a morose and bad temper, his heart breaks, his spirit is crushed, hope vanishes, and the husband sinks in despair the victim of a heartless wife.

COFFEE RAISING IN ILLINOIS. — Illinois seems to be a semi-tropical State. Besides the culture of sugar and cotton, the agriculturists there are turning their attention to coffee, which is said to have been grown there successfully. Geo. R. Hoffman, who resides near Effingham, on the Illinois Central Railroad, received a few seeds of coffee a few years since, from his son in Australia; these he planted, and the past season produced two bushels of ripe coffee, the quality of which is said to be excellent. The plant appears to be hardy and promises to be productive. Several parties in Effingham county are preparing to enter on its culture The plant comes into bearing the second year, and the third year produces pretty fair crops With these facts before the State Agricultural Society has offered premiums for Illinois grown coffee.

BRIGHT HOURS ON EARTH.—Miss Bremer says, "There is on earth much sorrow and much darkness; there is crime and sickness, the shriek of despair and the deep, long, silent torture — Ah! who can name them all, the sufferings of humanity, in their manifold pale dispensation? But, God be praised! there is also an influence of goodness and joy; there are noble deeds, fulfilled hopes, moments of rapture, decades of blissful peace, bright marriage days, and calm, holy death-beds."

PRESSED VEGETABLES.—A soldier writing from the Potomac about the "food," says: "We get a substance for soup called 'pressed vegetables.' It looks a good deal like a big plug of 'dog leg' tobacco in shape and solidity, and is composed in part of potatoes, onions, beans, garlic, parsley, parsnips, carrots, &c I acknowledge eating two China tin plates full without any convulsions of nature, and can now speak the German language with fluency."

can gather for themselves, and having them large and in good condition at fattening time The sows and pigs should be kept in good growing condition by feeding them on Indian corn, or corn meal made into slop. As soon as the clover begins to blossom, or a little before, turn them upon it Sows and pigs should still be given some grain while in the clover.

A YOUNG FARMER asked an old Scotchman for advice in his pursuit. He told him what had been the secret of his own success in farming, and concluded with the following warning: "Never, Sandie, *never*—above all things, NEVER get in debt, but if you ever do, *let it be for manure!*"

SEWING MACHINES

ARE UNEQUALLED BY ANY FOR

BEAUTY AND SIMPLICITY OF CONSTRUCTION

—AND—

Efficiency in Working.

A GOOD SEWING MACHINE

SHOULD BE WELL MADE, simple in its construction, and easily kept in order should make a FIRST CLASS STITCH, alike on both sides of the material, and should sew any and all materials that can be sewed

It should be able to use cotton, thread, or silk, directly from the spool, and to sew from coarse to fine, and from thick to thin, with rapidity, and without changing the tension. It should also be able to make the tension greater or less, on both the under and upper threads, and with uniformity, and should have a *straight* needle; curved ones being liable to break.

The needle should have perpendicular motion—this is absolutely necessary for heavy work

It should be able to bind with a binder, hem with a hemmer, should stitch, fell, run and gather, and should be always ready to work

It should be capable of using the same size thread on both sides of the work, and of using different colored thread or silk, above or below, to correspond with any two colors of cloth to be united

It should be able to make a long or short stitch, and to fasten off the seam, and commence sewing tightly at the first stitch, and to run easily, and make but little noise.

It should have a wheel-feed, no others are in constant contact with the work.

It should not be liable to get out of order; neither should it require a screw-driver or wrench to set the needle.

It should not be liable to oil the operator's dress

It should not form a ridge on the under side, or ravel.

Address, DR. L. J. CZAPKAY, San Francisco

Of all diseases, the first great cause,
Springs from neglect of Nature's laws.

To the Afflicted.

Suffer not when a cure is guaranteed in all stages of secret disease—Self-Abuse, Nervous Debility, Syphilis in all its stages, Stricture, Gleet, Gravel, Diabetes, diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancers, Dropsy, Epileptic Fits, St. Vitus Dance—and all diseases arising from a wrong management of the sexual organs—such as Nervous Trembling, Loss of Memory Loss of Power, General Weakness, Dimness of Vision, with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Diseases, Eruptions upon the Face, Pains in the Back and Head, Female Irregularities—and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians, and resisted all their means of cure. The medicines prescribed are gleaned, without odor, entirely vegetable, causing no sickness and not from the materia or balsam. During fifteen years of practice in Europe the Atlantic States and California, I have received from the jaws of death many thousands who, in the last stages of the above-mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a speedy and permanent cure. Private diseases are the greatest enemies to health, as they are the first cause of consumption, scrofula, and many other diseases, and should be a terror to the human family A permanent cure is scarcely ever effected—a majority of cases falling into the hands of incompetent persons, who not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption. But should the disease not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions and the current of life corrupted by a virus which betrays itself in scrofula, tetter ulcers, pimples and other affections of the skin eyes thrust inward, and entailing upon them a brief existence of suffering, and consigning them to an early grave

Self-abuse is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes as destructive a drain upon the system—thus drawing its thousands of victims through a few years of suffering down to an untimely grave It destroys the nervous system rapidly wastes away the energies of life, causes mental derangement prevents the proper development of the system disqualifies for marriage, anxiety, business and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself With the fullest confidence I assure the unfortunate victims of self-abuse, that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices, my patients can be restored to robust, vigorous health.

Irregularities, and all diseases of males and females treated on principles established by fifteen years of practice and sanctioned by thousands of the most remarkable cures—Medicines, with full directions, sent to any part of the State, Oregon and Washington Territory, by patients communicating their symptoms by letter

All business correspondence strictly confidential Address DR. L. J. CZAPKAY, Medical Institute Sacramento street below Montgomery, opposite Pacific Mail Steamship Co.'s Office, San Francisco

Remarkable Instance of Medical Relief

Below we publish the certificates of three of the sufferers from the pangs of disease, who having recovered their former health, and impelled by gratitude, make known their cases and remedial agent, and their statements are authenticated by a Notary Public The demands of society imperiously command their publicity, and we comply and their perusal to the attention of all afflicted

Certificate—The undersigned, desirous of acquainting those who may be unfortunate enough to be similarly afflicted, where a permanent relief of their sufferings may be obtained, feels it his duty to this public to express his most sincere gratitude to Dr. L. J. Czapkay, for the restoration of his health. Being drawn by the distressing symptoms incident to the vicious practices of unenlightened passion in youth, prostrated in body and mind unable to perform even the most trifling duty imposed upon the ordinary avocations of life I sought the advice of many physicians, who at first regarded my disease as of trifling importance—but alas! after a few weeks, and in several instances, months, of their treatment I found to my unutterable horror that instead of relief my symptoms became more alarming in their nature and being told by one that my disease being principally confined to the brain, medicine would be of little consequence I despaired of ever regaining my health strength and energy, and as a last resort And with but a faint hope, called upon Dr. Czapkay, who after examining my case, prescribed some medicine which almost instantly relieved me of the dull pain and dizziness in my head Encouraged by the result I continued to place myself immediately under his care and by a strict obedience to all his directions and advice my head became clear and my ideas collected, the constant pain in my back and groins the weakness of my limbs, the nervous agitation of my whole body on the slightest alarm or excitement, the misanthropy and evil forebodings of the future and want of confidence in others the incapability to study, and want of resolution, the frightful, exciting, and at times pleasurable dreams at night followed by involuntary discharges, have all disappeared, and in fact, in two months after having commenced the doctor, I felt as if inspired by a new life—but a short time ago I contemplated to end by my own hand. With the view to guard the unfortunate against falling into the snares of incompetent quacks, I deem it my duty to offer this testimony to the merit and skill of Dr. Czapkay, and recommend him to all who may stand in need of medical advice, being assured by my own experience that all who may place themselves under his care a radical and permanent cure will be effected.

E. F. FUNK

State of California, County of San Francisco ss.

Subscribed and sworn to before me, this 8th day of April, A. D. 1856. Signed JOHN MIDDLETON, Notary Public.

MARYSVILLE, June 16, 1856.

DR. L. J. CZAPKAY, San Francisco—*Sir:* I have used the last of your medicine, and do not think I shall require more, as I feel very well, except that I have not gained my strength yet, but soon will with this. It is just three weeks, you may recollect, since I called at your institute, with my constitution, as I then felt it, entirely, and never thought you would be able to restore it perfectly, but thought you might be able to do so to ease the pain in my back and head, and give me rest, so that I would not get excited and fret at everything Now that you know what I say, I will give you the full judge of my satisfaction at my complete recovery from my symptoms, and the removal of those sores and ulcers from my skin and the ulcers from my throat, and the putrid matter of those emissions, which you said were the principal cause of my sickness I can hardly tell you which is the greatest my joy or my surprise, for except not having the full use of my got my strength, I feel as well as any man could feel.

Enclosed I send you twenty dollars over your charge, and think myself cheaply cured If you think proper, I will be benefited you may put this letter in the newspapers, and believe me gratefully yours, THOMAS FISHER

Thankfulness is the Incentive to Gratitude.

CERTIFICATE.—Prompted by an honest desire of my heart, I wish to lay before the public a case which I consider recommendation, not only as an act of scientific skill, but that of humanity also About two years ago, I received a wound caused unknown to me, was seized with a fit of epilepsy, which, owing to my inability to meet the expenses consequent upon a thorough medical treatment, and the disagreement which I met with on attempting it, some kinds (I was then led to believe) as to defy the skill of any physician. I was frequently, while in public, violently thrown down to the ground without the power of motion, and although insensible to the agonies, I yet dreaded the miseries of my life, and soon learned to look upon those who would render assistance or shelter me from danger as enemies who sought to prolong the existence of my misery. While in this state, and having, previous to my misfortune, tasted the sweets of life, I once more was induced to try seeking aid of a physician, and, by recommendation, called upon Dr. L. J. Czapkay I told him of my distress, and of my inability to reward him for his services, all of which, however, he at once undertook my case, and with the blessing of God, I was once more restored to perfect health Unable to reward him for the boon which I enjoy at present, and yet conscious of my indebtedness, I consider it due to myself and all afflicted, to make the case public, in order that those in need of medical advice may find a physician in whom every confidence can be placed.
